

ANNEX 5

Sharing is caring

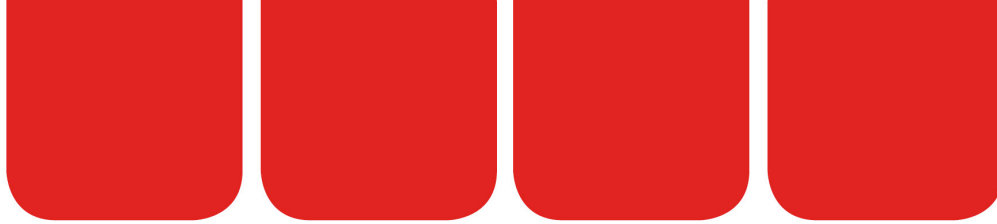

Radicalisation through sharing – what gets shared?

Erasmus+

JUGEND
für Europa

“a lot of radicalisation is group initiated
...one friend tends to radicalise another,
people tend to view videos together...

We then can have people who are
very isolated who seek out...

Our focus should be on helping parents.”*

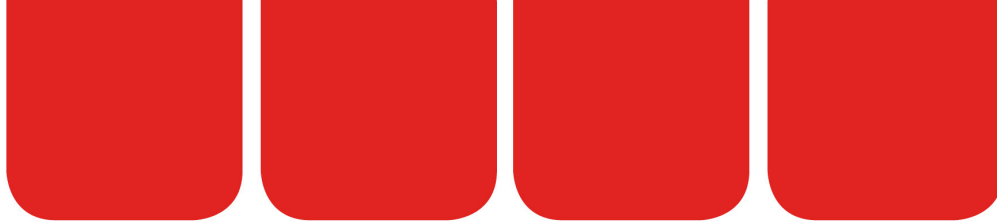

*Dr Leah Farrall, National Security College ANU, Countering online radicalisation
